

## Welcome to Bugatti

The Brand Bugatti stands for exclusiveness, luxury, elegance, outstanding design and enormous passion. Unique visions, the strong tradition of legendary sports cars as well as the technical precision in development, construction and production – they form this brand since its founding in 1909, by Ettore Bugatti.

We are looking for you as a :

# BG-Q - Technical Quality Assurance Officer (m/f/d)

### Your Tasks

- Support Quality Assurance :
  - Recognize problems as well as promoting problem recognition.
  - Coordinate and track problems on components, assemblies, vehicles and manufacturing processes from detection to resolution
  - Analyze and assess production readiness and delivery quality in coordination with other areas such as development, planning and manufacturing
  - Create analysis reports with cause illustration
- Represent the interests of the organizational unit through active participation in project discussions and in change management
- Evaluate, compile, and present component-oriented problem focus
- Supervise, qualify and monitor internal and external suppliers:
  - Update the instructions in the supplier manual and coordinate the test concepts/documentation
  - Coordinate and create test plans with the departments and suppliers
  - Coordinate and carry out acceptance tests on focal parts at the manufacturer in coordination with other departments
- Control of necessary measurement tasks and examinations as well as evaluation of measurement results
- Coordinate and carry out sampling
- Ensure the required documentation accompanying production
- Participate in customer service activities, field issues

### Your Skills

- Completed university studies (bachelor's or Master's degree) in an engineering field related to automotive engineering and/or quality assurance and/or project management
- Advanced knowledge and experience in all areas of automotive engineering as well as several years of professional experience
- Advanced knowledge in Microsoft Office, KVS, AVON, SAMBA, KPM
- Fluent in English, basic knowledge of French and German
- Willingness to travel
- Good knowledge in the method of quality in BTW
- Analytical skills, demonstrate confidentiality and team-spirit, take initiative
